

## MISSION

"Assisting Each Person Served in Achieving The Highest Quality of Life!"

## VISION

MRSI's vision is to provide quality services that support the choices and needs of the persons served and promote purpose, respect and dignity.

## 2022 PERFORMANCE MEASUREMENT AND MANAGEMENT PLAN

Services are primarily funded through the Wyoming Division of Healthcare Financing, Home and Community-Based Waiver. Alternative funding sources are welcomed. Eligible persons seeking services from MRSI can participate in community housing, community employment, supported living and community integration. Other services are available when requested as MRSI developed strong relationships with numerous providers in the communities. Coordination with the participants, families, employers, case managers and providers are key elements of assuring quality services.

## Purpose of Performance Measurement and Management Plan

MRSI is committed to providing quality services to persons served and stakeholders. The organization believes that with quality comes the responsibility to evaluate services and business functions on an ongoing basis. MRSI collects data from the following areas: Financial, accessibility, resource allocation, risk management, human resources, technology, health and safety. Data is also collected from surveys wherein progress, concerns, and recommendations from persons served, families/guardians, MRSI employees and other stakeholders are solicited. After careful analysis, findings are utilized for developing recommendations and plans to support the mission and vision statements providing quality services ensuring leadership and fiscal responsibility, as well as satisfaction of persons served, employees, and other stakeholders.

Similarly, data collection focuses on participants served, demographics, progress, difficulties, etc. This is completed through participant and staff reporting, as well as a variety of other sources. The process of data collection and evaluation results in guidance towards strategic planning and service provision.

Completion and analysis of the 2021 Measurement and Management Outcomes and trends findings provided MRSI with benchmarks for improvement in the 2022 year. Objectives for improvements are described below.

**Table 1-Business Function** 

| Domain      | Objective   | Indicator  | Target  | To Whom                           | Time of Measure       | Data Source  |
